New FSU Law Racial Justice Advocacy Fund

From the Dean

The FSU College of Law is committed to creating a more equitable society. We have a deep and abiding commitment to offering students opportunities to contribute to the larger conversation on the role and impact of the law in society. This includes hosting events that address issues of justice and equality, such as student-organized protests and the 2020 Racial Justice Advocacy Fund. These events are part of our ongoing efforts to create a more inclusive and just society.
